Dear Mr. Dubilo,

Please let him that we can propose an Extract of Archive for \$260

This document can be made at our Service Center in Clearwater.

PLEASE NOTE: this document does NOT authenticate a watch, it is only (as its name states) an extract of info from our Registers (case# and reference# of the watch).

We just need to receive clear pictures of the front and back of the watch (showing the case number) by email to issue this document.

Sincerely,

Sadique

Thank you, I am a watchmaker myself and everything appears authentic and I've already serviced the watch and it works by modern chronometer specs. That said, it's not necessary for me to send it to service. Do you have an extract to the archives program to find out more information? Does AP have a Museum department?

Warm Regards,

Dear Mr. Dubilo,

Thank you for getting back to me with your questions.

In regards to the authenticity of the timepiece, we can only give the information based on our registers. We cannot confirm the authenticity of an Audemars Piguet timepiece without receiving it in our service center for an examination.

This timepiece was not specified as a man's or a woman's when it was sold. We have seen this model at the service center, however as there have been quite a lot of different models over the years it's not something that we get in every day. We would that particular model. This information is only available for limited timepiece.

Should you need any further information, please do not hesitate to get in touch with a member of our team.

Sincerely,

So this is a real AP Royal Oak?. Is it a ladies piece or a boys or men's? Trying to decide if I should send it into service. Why is it that no one has ever seen this model watch before? Were very few made?

I just want to make sure that AP really made this watch, I cannot find another one anywhere. Thank you so much! I love the new on my list of watches to buy next.
